

2008 ASCE Deep South Regional Conference

February 12, 2008

Dear Potential Sponsor,

Louisiana State University is hosting the Deep South ASCE Student Conference that will be held on the dates of April 3-5, 2008. As the much anticipated event draws near, we are in the process of raising funds to make the conference a success.

The Deep South conference, an event sponsored by the American Society of Civil Engineers and other local engineering firms, is an annual conference which brings together all of the ASCE Student Chapters from civil engineering programs from around the area. The conference gives ASCE student members a chance to gain valuable hands-on experience by competing in such events as a concrete canoe competition and steel bridge design and construction. We will also be holding a concrete Frisbee and "mystery" event during the conference.

Please consider a financial contribution to the ASCE Conference. Your gift will subsidize the cost of equipment rentals, plaques and awards, facility rental, and registration packets. There is the opportunity to display your firm's name and/or logo at the conference events, in the program, on the conference t-shirt, and at the banquet. In addition, your contribution is in support of the LSU ASCE Student Chapter, a non-profit group.

Enclosed is a sample form that explains our sponsorship program this year. For planning purposes, we would appreciate your response by March 5, 2008.

Thank you for your consideration and generosity. If you have any questions or need additional information, please e-mail Amanda Hamlin at ahamli2@lsu.edu or Claire Murray at cmurra4@lsu.edu.

Thank you,

Adele Cook
